

Are **you unsure** as to what training your organisation needs?

We can help with our **FREE** Organisational Training Needs Analysis. This will provide you with a report on your training needs, contacts for suitable training providers and any potential sources of funding that may be available.

“I bet we have to fill in loads of paperwork....”

No – we have specialist advisers who work with you to gather the information, or you can complete it online if that is more convenient. Our advisers are very familiar with the voluntary and community sector and the training and development providers who offer what you need. With your agreement we may refer you to other sources of information, advice and funding that may require you to complete additional forms.

Know **you need some training**, but can't find anyone who provides it?

We can help by looking for the training on your behalf.

“But isn't all this help and advice expensive?”

Actually, it's free!

Did you know there is £1000 available through the Train to Gain Leadership and Management offer? The first £500 is for developing leadership skills in your organisation, a further £500 is also available which you must match. For more information about how to get funding for your training just contact us (our details are on the back of this leaflet).

Got a general learning & development question?

Our experienced advisers are here to help.

With funding from the European Social Fund through the Learning & Skills Council we're able to help you at no cost to your organisation.
